

## FEATURED ACCESSORIES

Extend the capabilities of Simon XT® with optional accessories for added convenience and performance.

### Detectors And Sensors

A wide range of wireless devices enable lighting and thermostat control in addition to the detection of common household threats.

- Z-Wave® lighting and lock control
- Z-Wave HVAC control
- Smoke and heat detectors
- Door/window sensors
- Freeze and water sensors
- Motion and shock sensors
- Keychain touchpads
- Glass guard sensors
- Wireless panic buttons
- Carbon monoxide sensors
- Remote hand-held touchpads

### Two-Way Talking Touch Screen

This color LCD screen functions as an additional interface to control Simon XT security systems. Optional wireless devices can be added to control locks, thermostats and lighting.

### Maximum Life Wireless Door/Window Sensors

Featuring two-axis sensing and up to 10 years maximum battery life, these wireless sensors are designed to monitor doors, windows, cabinets or virtually anything that opens.

### ShatterPro™ Glassbreak Sensors

With a 20-ft. range and 360° coverage pattern, these sensors detect breaking glass using Pattern Recognition Technology™. A simple hand clap or hand-held tester confirms that the sensor is operational.

### Four-Button Micro Keyfob

This small, powerful touchpad acts as an electronic key to arm or disarm security systems.

With a wireless design that installs quickly and easily, Simon XT is the time-tested solution for homeowners looking for security they can count on. Available with a Two-Way Talking Touch Screen and remote capability through remote system management, Simon XT can provide comprehensive intrusion detection, life safety monitoring and smart home convenience.

# Wireless security that keeps you connected

## Features that secure your home and protect your family

### Safe

#### Two-way communication

Microphone for emergency two-way communication with monitoring station personnel

#### Always secure

Backup power supply keeps the system operational during power failures

### Effective

#### Emergency fast-action keys

Quickly summon Fire, Medical or Police assistance with one button

#### Super-loud piezo siren

Provides effective alert notice throughout the home

#### Hear clearly

Speaker for voice audio status messages and prompts, live communications with monitoring station personnel and configurable "voice chimes"

### Convenient

#### User friendly

Up-front and easy-to-understand buttons for arming, disarming and status display

#### Easy to read

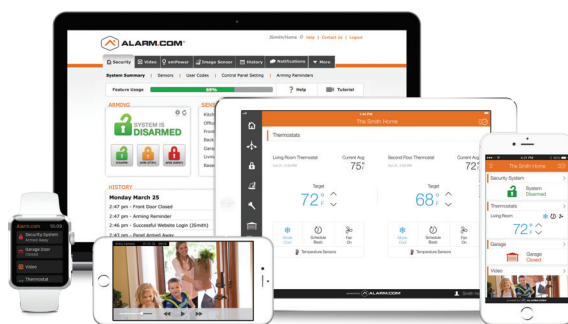

Large, backlit LCD display makes it easy to read status updates and messages

#### Illuminated buttons

Easy-to-see backlit buttons and controls

## Options to make the most of your system

With the optional cellular reporting and Alarm.com features, Simon XT® features remote monitoring and control of your security system for convenient and effective home protection.

powered by  ALARM.COM®

### Control latchkey and no-activity alarms

Now you can check who's home and when they got there. Plus, if a child is scheduled to arrive home but doesn't, a no-activity alert can be sent.

### Receive voice, email or text message reports

Off-normal events can be quickly and conveniently communicated to a variety of preferred devices to facilitate quick response.

### Remote lighting control

Returning to a brightly lit home ensures comfort and security. Likewise, turning off lights after you've left is easy and convenient.

## Designed for modern life

### Monitor household activity in real time

View household activity online, check in on sick or elderly loved ones, and even keep tabs on vacation properties.

### Arm/Disarm Simon XT from anywhere

Communicate with Simon XT by phone or Internet to easily adjust your system to meet changing conditions.
